PROFILE

Strong focus on C# and .NET Core applications, Azure cloud services, and reliable integrations between systems. I enjoy taking ownership of features end-to-end, contributing to architectural decisions, reviewing code, and keeping production systems stable.

EXPERIENCE

Senior Backend Developer

Tarlogic

Nov 2023 - Present

C# | .NET Core | ASP.NET Core | Azure

- Designed and built backend services using C#, .NET Core and ASP.NET Core for high-volume microservices and modular monolith applications.
- Created APIs and connections between internal core systems and external partner platforms on Azure.
- Applied Clean Architecture, Vertical Slices and CQRS patterns to keep codebases modular and maintainable.
- Integrated Azure AI/ML services and improved visibility with structured logging, health checks and monitoring dashboards.
- Participated in code reviews and technical discussions while ensuring quality through automated testing with xUnit.
